Degree summary

Accessible full or part-time, this programme is ideally suited to those working 'at the coalface' in the care of patients considering, preparing for, having and recovering from surgery. With a faculty from UCL, UK and abroad, this Perioperative Medicine MSc will help you develop the professional skills and aptitude that you can take back to the bedside and clinic to improve the care of high risk surgical patients. Distance learning – accessible full or part-time between 1- 5 years.

Who will benefit from this programme?

The programme is mainly aimed at doctors specialising in anaesthesia, surgery and medicine, but is very much suited to specialist nurses and other perioperative healthcare workers.

Core Modules

- The Landscape of Perioperative Medicine
- Towards a New Model in Perioperative Care
- Data in Perioperative Care
- Quality, Safety and Leadership in Perioperative Care
- The Evolving Paradigm in Perioperative Cardiac Disease
- Perioperative Pain and Cancer Disease
- Perioperative Issues for an Ageing Population
- Special Topics in Perioperative Care
- Dissertation/Research Project (MSc only)

Why study this programme at UCL?

UCL is one of the world's very best universities, consistently placed in the global top 10 in world rankings. This programme is a new and innovative distance learning course taught by a faculty of leading experts in Perioperative Medicine. The MSc in Perioperative Medicine will help develop knowledge and skills to allow students to lead and develop the perioperative care of the future.
